Technical Skills

Frontend: JavaScript, TypeScript, React, Next.js, Vue.js, React Native, Expo, Tailwind CSS
Backend: Go, Python, Node.js, PHP, Laravel, RESTful APIs
Cloud & DevOps: AWS (S3, RDS, Lambda, SQS, CloudFront, CloudWatch), DigitalOcean, Docker, Git
Databases: PostgreSQL, TimescaleDB, MySQL, MongoDB
AI & Tools: OpenAI API, AWS SageMaker, Cursor, Claude Code, harness engineering

Experience

Full-Stack Engineer, Capte - Remote — Oct 2025 - Present

- Own full-stack development of an internal IoT portal, built from scratch in PHP/Laravel to support connected vehicle devices; coordinate features with the European engineering team.
- Develop and maintain IoT device servers and a device simulator supporting firmware uploads, update workflows, and version tracking.
- Delivered real-time device logs and portal-to-device commands, enabling engineers to inspect device behavior and troubleshoot connected hardware from the portal.
- Support device telemetry storage and access using PostgreSQL and TimescaleDB hypertables on DigitalOcean.

Founder & Software Engineer, True Blue Service — Aug 2025 - Present

- Built a field service SaaS platform with Next.js, TypeScript, Go, and PostgreSQL for scheduling, customer management, estimates, and invoices.
- Released iOS and Android apps using React Native and Expo; integrated Stripe payments across field service workflows.
- Established an AI-assisted development workflow using Cursor and Claude Code, combining project guidelines, feature tracking, and specialized agents across web, backend, and mobile development.

Freelance Software Engineer - Remote — Feb 2025 - Present

- Maintain a WordPress website and implement search engine optimization (SEO) updates for a free ad-supported streaming television (FAST) business.

Software Engineer, Ezoic Inc. - Carlsbad, CA — Mar 2022 - Jun 2024

- Built Go APIs and Vue.js features for Humix, a video publishing and monetization platform supporting 10K+ content creators and publishers.
- Developed video upload and processing services with Go, AWS Lambda, and SQS, reducing upload latency by 40% and supporting batch processing.
- Integrated AWS SageMaker and OpenAI APIs to match videos with webpage topics and improve content relevance.

Frontend Developer, Wizrds LLC. - Sacramento, CA — Jun 2021 - Jan 2022

- Built responsive React interfaces from Figma designs and integrated Node.js and MongoDB APIs, working directly with clients and designers.

Education

Oregon State University - Honors B.S. in Computer Science, GPA 3.86 — 2017 - 2021
